CYLINDER SPECIAL

Overfill protection devices are now required on all new 4-40 lb. propane cylinders. After **April 1, 2002**, any cylinder in this capacity range cannot be refilled without an OPD valve.

If you have an old propane cylinder of 40 lbs. or less, it will need to be retrofitted when it is inspected for requalification.

Bring your cylinder for retrofit or trade-in on a new replacement cylinder to:
